

## Curriculum Vitae of Ming-Jun Lai

Ming-Jun Lai  
Department of mathematics  
University of Georgia  
Athens, GA 30602  
Tel. (706)542-2065                      Fax: (706)542-5907  
Email Addresses:                      mjlai@math.uga.edu,                      mingjun.lai@gmail.com  
URL:                                      www.math.uga.edu/~mjlai

### Academic Degrees

B. S.      Jan., 1982      Hangzhou University, China  
Ph. D.    Aug., 1989      Texas A&M University (Advisor: Charles K. Chui)

### Professional Experiences

1982-1984	Assistant Lecturer	Hangzhou University, China
1989-1992	Instructor	University of Utah, Utah, USA
1992-1995	Assistant Professor	University of Georgia, Georgia, USA
1995-2000	Associate Professor	University of Georgia, Georgia, USA
2000-present	Professor	University of Georgia, Georgia, USA
Jan.–May, 2003	Visiting Professor	Vanderbilt University, Tennessee, USA
Aug.–Dec., 2004	Visiting Professor	Georgia Institute of Technology, Atlanta, USA
April, 2006	Visiting Professor	University of Oslo, Oslo, Norway
Jan. 12–Feb. 12, 2014	Visiting Professor	Arizona State Univ., Phoenix, AZ, USA

**Specialization:** Approximation Theory, Compressed Sensing, Computer Aided Geometric Design, Mathematical Image Analysis, Multivariate Splines, Numerical Analysis, Numerical Solution of Partial Differential Equations, Wavelet and Frame Analysis.

### Research and Related Activities

#### Publications

##### a. books (monograph as well as conference proceedings)

- [1]M. J. Lai and L. L. Schumaker, *Spline Functions over Triangulations*, 585+pages, Cambridge University Press, Cambridge, U.K. 2007.
- [2]G. Chen and M. J. Lai (edited), *Wavelets and Splines, Athens, 2005*, 515 pages, Nashboro Press, Brentwood, Nashville, 2006.

##### b. papers published in journals

**Software Development**

- A Matlab Package of Bivariate Splines for Scattered Data Fitting. This package uses bivariate splines of arbitrary degree, arbitrary smoothness over arbitrary triangulation to interpolate scattered data, fitting or smoothing scattered data, and data prediction.
- A Matlab Package of Trivariate Splines for Scattered Data Fitting. This package uses trivariate splines of arbitrary degree, arbitrary smoothness over arbitrary tetrahedral partition to interpolate scattered data and fitting or smoothing scattered data.

- A Matlab Package of Bivariate Splines for Numerical Solution of Poisson equations, Biharmonic Equations, and Navier-Stokes equations. This package uses bivariate splines of arbitrary degree, arbitrary smoothness over arbitrary triangulation to numerically solve Poisson equations and Navier-Stokes equations.
- A Matlab Package of Bivariate Box Splines for Image Edge Detection. This package uses various B-spline and box spline wavelet framelets to find edges of images.

### Invited Presentations

- June, 1992 a talk at Chevron Oil Field Research Company, 1300 Beach Boulevard, La Habra, California.
- Oct., 1992 a colloquium talk at Department of Mathematics, Vanderbilt University, Nashville, Tennessee.
- April, 1993 a colloquium talk at Department of Mathematics, Georgia Institute of Technology, Atlanta, Georgia.
- May 1, 1993 a 20 minute talk at a conference on interaction between operator, wavelets, and control theory at Charlotte, University of North Carolina at Charlotte.
- Mar. 2, 1995 a 20 minute talk at an international conference on scattered data fitting in Cancun, Mexico.
- Aug. 22, 1996 Invited to give seminar talks at Dept. of Math., Nankai University, Tianjin, China.
- May 10, 1997 a 30 minute talk at an international conference on Multivariate Approximations at Oberwolfach, Germany
- Aug. 12, 1997 a 30 minute talk at an international conference on computational mathematics at Guangzhou, China.
- July 28–Aug. 2, 1998 a 30 minute talk at the eighth international congress of applied and computational mathematics at Lueven, Belgium.
- Dec. 12–16, 1998 a 30 minute talk at the first international congress of Chinese mathematicians at Beijing, China.
- Mar. 18, 1999 a seminar talk at Dept. of Math. Penn. State Univ., University Park, Penn.
- April 16–20, 1999 a 30 minute talk at the second international conference on scattered data interpolation in Peuto Vallata, Mexico.
- June 17, 1999 a seminar talk at Dept. of Math. University of Nante, France.
- Nov. 2–7, 1999 a 30 minute talk at the SIAM conference on computer aided geometric design in Albuquerque, New Mexico.
- Mar. 6, 2000, a colloquium talk at Dept. of Math. University of Missouri at St. Louis, Missouri. The talk title is "Multivariate Splines: Theory and Its Applications".
- April 10, 2000, a colloquium talk at Dept. of Mathematics, Temple University, Philadelphia. The talk title is "Multivariate Splines: Theory and Applications".
- June 1, 2000 a seminar talk at Dept. of Applied Math., School of Mathematical Sciences, Peking Univ., Beijing, China. The talk title is "Multivariate Splines for Numerical Solution of PDE's".
- June 8–22, 2000 seminar talks at Dept. of Math., City Univ. of Hong Kong, China. The talk titles are "Multivariate Splines and Numerical Solution of PDE's."
- June 23, 2000 a seminar talk at Dept. of Math., Zhongshan University, Guangzhou, China. The talk title is "Multivariate Splines for Scattered Data Interpolation".
- July 2, 2000 a seminar talk at Dept. of Math., Zhejiang University, Hangzhou, China. The talk title is "Methods for Constructing Nonseparable Orthonormal Wavelets".
- March 9, 2001 a seminar talk at Dept. of Math., University of Michigan, Ann Arbor, Michigan, U.S.A. The talk title is "Multivariate Splines for Fluid Flow Simulation".
- May 2, 2001 a seminar talk at Dept. of Math., University of Wisconsin, Madison, Wisconsin, U.S.A. The talk title is "Multivariate Splines for Navier-Stokes Equations".

- May 31, 2001 a seminar talk at Dept. of Math., Zhejiang University, Hangzhou, China. The talk title is "Multivariate Splines for PDE's".
- Nov. 6, 2001 a 30 minute talk at Geometric Design and computing, a SIAM conference at Sacramento, California. The talk title is "The L1 spline method for scattered data interpolation".
- April 10, 2002, a seminar talk at School of Mathematics, Georgia Institute of Technology, Atlanta, Georgia. The talk title is "Construction of Compactly Supported Orthonormal Wavelets".
- April 20, 2002, a seminar talk at Dept. of Mathematics, Texas A& M University, College Station, Texas. The title of talk is "Multivariate Splines and Its Applications".
- May 23, 2002, a seminar talk at Dept. of Computer Science and Engineering, Brigham Young University, Provo, Utah. "Multivariate Splines for Applications".
- July 8, 2002 a 30 minutes talk at SIAM Annual conference at Philadelphia. The title of talk is "Multivariate Splines for PDE's".
- Sept 22–27, 2002 a 30 minutes talk at an international conference on Multivariate Approximation, Haus Bommerholz, Germany. The title of the talk is "Multivariate Splines for Applications".
- Nov. 26, 2002 a seminar talk at Department of Mathematics, University of Maryland. The title of talk is "Multivariate Splines for Numerical Solution of PDE's".
- Dec. 20–23, 2002 a 40 minute talk at an international conference on computational mathematics, Zhongshan University, Guangzhou, China. The talk title is "Construction of Compactly Supported Tight Frames".
- March 18, 2003 a seminar talk at the Department of Mathematics, Vanderbilt University. The talk title is "Construction of Compactly Supported Prewavelets in Sobolev Spaces."
- Nov. 12, 2003 invited to participate a minisymposium and present a talk at the Geometric Design and Computing at Seattle, WA. The talk title is "Construction of Compactly Supported Vertex Splines"
- Nov. 12, 2003 organized a minisymposium during the Geometric Design and Computing at Seattle, WA. The minisymposium title is "Spherical Data Interpolation and Approximation".
- Dec. 8, 2003 invited to attend a workshop at Dept. of Math., Vanderbilt University and presented a talk on "Spherical Splines for Scattered Data Interpolation".
- Aug. 18–Oct. 5, 2004 presented two talks on in the Analysis seminar, one talk in the PDE seminar, and one talk in the Applied Math. seminar at School of Mathematics, Georgia Institute of Technology.
- Dec. 8, 2004 a colloquium talk at the College of Software Engineering, Georgia Southern Polytech. State University. The talk title is "Box Spline Tight Wavelet Frames for Image Edge Detection".
- Sept. 15, 2005 a colloquium talk at the Department of Statistics, University of Georgia. The talk title is "Spherical Splines for Scattered Data Fitting".
- Oct. 21, 2005 a colloquium talk at the Georgia Southern University. The talk title is "Spherical Splines for Scattered Data Fitting".
- Nov. 2, 2005 organized a mini-symposium during the Geometric Design and Computing at Phoenix, AR. The mini-symposium title is "Spherical Spline Approximation".
- Feb. 24, 2006 a keynote speech at the Eleventh Annual Mathematics Technology Conference at Valdosta State University. The talk title is "Multivariate Splines and Their Applications".
- April 18, 2006 a colloquium talk at the Center of Mathematics for Application, University of Oslo, Oslo, Norway. The talk title is "Multivariate Splines for Numerical Solution of PDE's".
- March 3–8, 2007 a plenary speech at the Twelfth Approximation Theory Conference at San Antonio, TX. The talk title is "Multivariate Splines for Data Fitting".
- March 9, 2007 a colloquium talk at Texas A&M University, Prairie View, Texas. The talk title is "Box spline tight wavelet frames and their applications".
- June 18–23, 2007 a 40 minutes talk at international conference on Applied and Computational Harmonic Analysis at Fudan University, Shanghai. The talk title is "The virtual component method in the multivariate setting".
- June 25, 2007 invited to give a talk at Nanjing University, Nanjing, China. The talk title is "multivariate splines for data fitting and approximation".

- Sept. 13–14, 2007 two colloquium talks at Northern Illinois University, DeKalb, Illinois.
- Oct. 15, 2007 a colloquium talk at Dept. of Statistics, Harvard University.
- Mar. 11, 2008 a colloquium talk at Department of Applied Math., Cambridge University, England.
- March 31, 2008 a seminar talk at Department of Math., Penn. State University.
- May 13–15, 2008 two seminar talks at Department of Mathematics, Zhongshan University.
- Oct. 30, 2008, e a seminar talk at Department of Mathematics, Harvard University.
- Jan. 26, 2009, a seminar talk at School of Mathematics, Georgia Institute of Technology.
- Feb. 19, 2009, a Seminar Talk at Department of Mathematics, University of Alabama, Tuscaloosa.
- March 5, 2009, a Seminar Talk at Department of Mathematics at the Renmin University, Beijing, China.
- Oct. 8, 2009, a Seminar talk at Institute of Bioinformatics, University of Georgia.
- March, 25, 2010, a colloquium talk at Georgia Southern University, Statesboro, Georgia.
- June 11, 2010, a seminar talk at Fudan University, Shanghai, China.
- June 24, 2010, a colloquium talk at Zhejiang University, Hangzhou, China.
- March 14, 2011, a colloquium talk at Rice University, Houston, Texas.
- April 15, 2011, a colloquium talk at Case Western University, Ohio.
- May 20–22, 2011, an invited talk at Workshop on Applied Harmonic Analysis and Approximation Theory, Guangzhou, China.
- May 24–25, 2011, Triennial Strategy Planning Workshop of the Mathematical Sciences Division of the Army Research Office at the Marriott Hotel, Research Triangle Park, North Carolina.
- Oct. 27, 2011, a colloquium talk at Dept. of Math., Mannheim University, Mannheim, Germany, 2011.
- Oct. 28, 2011, a seminar talk at University of Heidelberg, Heidelberg, Germany, 2011.
- Nov. 14, 2011, a colloquium talk at Dept. of Math. Kennesaw State University, Atlanta, 2011.
- Feb. 22, 2012, a colloquium talk at Department of Mathematics, University of Kansas, Lawrenceville, Kansas.
- May 28, 2012, a colloquium talk at Department of Mathematics, Drexel University, Philadelphia, Penn.
- Oct. 10, 2012, a colloquium talk at Department of Mathematics, University of California, Los Angeles. The title of talk is "Boxspline Wavelet Frames for Image Edge Analysis".
- Oct. 25, 2012, a colloquium talk at Department of Mathematics, University of Idaho, Moscow, Idaho. The title of talk is "Boxspline Wavelet Frames for Image Edge Analysis".
- Nov. 9, 2012, a colloquium talk at Department of Mathematics, Purdue University, West Lafayette, IN. The title of talk is "Title: Some Recent Advances on Compressed Sensing and Matrix Completion".
- Feb. 11, 2013, I gave a colloquium talk at Dept. of Math., Wayne State University on Feb. 11, 2013 on multivariate splines and their applications.
- Feb. 3, 2013, I present a colloquium talk at Arizona State University, Phoenix, AZ. on compressed sensing and matrix reconstruction.
- Feb. 24March 2, 2013, I attended a workshop and give a talk at Oberwolfach Mathematical Research Institute, Germany during Feb. 24March 2, 2013 and presented a talk on tight wavelet frames on sphere.
- March 14, 2013, I gave a colloquium talk at Dept. of Applied Math. Illinois Institute of Technology.
- March 15, 2013, a colloquium talk at Department of Mathematics, University of Illinois at Chicago.
- May 2024, 2013, I attended an international conference on Approximation Theory and Applications and invited to give a talk on May 20–24, 2013 at the City University of Hong Kong.
- Oct. 11, 2013, I presented a colloquium talk at Department of Mathematics, University of California, Los Angeles on Multivariate Splines for Applications.
- Nov. 24, 2013, I visited University of College, London, England for three day visit.
- April 7, 2014, I presented a seminar talk at Georgia Institute of Technology on scattered data interpolation with shape preservation.
- May 16, 2014, I attended the first international conference on Dynamical System and Numerical Analysis and was invited to give a talk.
- Dec. 10, 2014, I attended an international conference on Learning and Approximation Theory and was invited to give a talk on Dec. 8–12, 2014 at Fudan University.

### Research Grants

- Dec., 1989 P. I. on a Faculty Grant from the University of Utah Research Committee.
- Sept. 8, 1993 P. I. on a research grant from National Science Foundation (#DMS9303121) for three years 1993–1996 for an amount \$60,000.
- July 15, 1994 P. I. on an equipment supplement from National Science Foundation for an amount \$11,200 and a matching from the State of Georgia.
- Sept. 10, 1996 P. I. on an equipment supplement from National Science Foundation for an amount \$4,896 and a matching from the State of Georgia.
- Aug. 1, 1998 P. I. on a research grant from National Science Foundation (#9870178) for three years 1998–2001 for an amount \$70,334.
- Jan. 10, 2001 co.-P. I. on a VIGRE grant from National Science Foundation (#DMS 0089927) for five years 2001–2005 for an amount \$2,450,000.
- March 18, 2002 P. I. on a conference grant from the U. S. Army Research Office for an amount \$4,448.
- July 1, 2003 P. I. on a computer equipment grant from the U.S. Army Research Office (# 44659-MA-RIP) for an amount \$54,179.
- Sept. 1, 2003 P. I. on a collaborative mathematical research grant from the National Science Foundation (#EAR-0327577) for four years 2003–2007 for an amount \$250,166.
- April 12, 2004 P. I. on a conference grant from the U. S. Army Research Office for an amount \$13,293.
- Sept. 15, 2004 P. I. on a conference grant from the National Science Foundation for an amount \$18,000.
- April, 2007 co-P.I. on a data grant from the European Space Agency for free access of the geo-potential data from satellite GOCE.
- Sept. 1, 2007 P.I. with co-PI A. Petukhov on a research grant from the National Science Foundation (#DMS 0713807) for an amount \$215,855.
- Aug. 15, 2011 P. I. with co-PI D. Robinson on a research grant from the U.S. Army Research Office for an amount \$49,998.

**Total Amount of Federal Grants Received:** \$752,371.

Sept. 1, 2013 P. I on a collaboration grant from Simon's Foundation for 5 years.

### Research Awards

- April 2, 2003, received a Creative Research Medal Award from the University of Georgia Research Foundation.

## Teaching and Related Activities

### Graduate Student Supervision

#### Students graduated

- [1] Jiangxiang Liu, Masters of Sciences, graduated in Aug. 1995.
- [2] Kathleen Farmer, Masters of Sciences, graduated in Aug., 1997. She is now an instructor at Dept. of Math., North Louisiana State University.
- [3] Richard Tatum, Masters of Applied Mathematics and Sciences, graduated in Aug., 1999. He is now a scientist at Naval Surface Warfare Center, VA.
- [4] Victoria Baramidze, Masters of Applied Mathematics and Sciences, graduated in Aug., 1999.
- [5] Wenjie He, graduated with Ph.D. in Aug., 1998. He is now an associate professor at Dept. of Math. and Computer Science, University of Missouri at St. Louis, Missouri.
- [6] Xiangming Xu, graduated with Ph.D. in May, 2001. He is now a software engineer at Telchemy company in Atlanta.
- [7] Gerard Awanou, graduated with Ph.D. in Aug. 2003. He was a post-doc associate at the Institute for Mathematics and Applications at University of Minnesota for three years. He is now an assistant professor at Dept. of Math., Northern Illinois University, DeKalb, Illinois. He received a Sloan fellowship in 2009.
- [8] Victoria Baramidze, graduated with Ph.D. in Aug. 2005, She is now an assistant professor at West Illinois University.
- [9] Kyunglim Nam, graduated with Ph.D. in Aug. 2005. She was a visiting assistant professor at University of Toledo, Toledo, Ohio. She is now married and takes care of her two kids at home.
- [10] Jie Zhou, graduated with Ph.D. in Aug., 2006. He is an assistant professor at Department of Mathematics, Coastal Carolina University in fall, 2007.
- [11] Okkyung Cho, graduated with Ph.D. in Aug., 2006. She is a visiting assistant professor at University of Toledo, Toledo, Ohio in the fall, 2006. Now she is an assistant professor at Montgomery College, Maryland.
- [12] Haipeng Liu, graduated with Ph. D. in Aug. 2007. He is a lecturer at Georgia State University, 2007.
- [13] Jianbao Wu, graduated with Ph. D. in Aug. 2007. I have no his further information.
- [14] Bree Ettinger, graduated with Ph. D. in Aug. 2009. She is a lecturer at Georgia State University starting from fall, 2009. Now she is lecturer at Morehead College, Atlanta, GA. She has been a postdoc in Italy and now is a lecturer at Emory University.
- [15] Louis Yang Liu, graduated with Ph. D. in Aug. 2010 working on random matrix theory. He has been a visiting assistant professor at College of William and Mary and now is a visiting assistant professor at Michigan State University.
- [16] Qianying Hong, graduatd with Ph. D. in Aug. 2011 working on mathematical image analysis. She is a lecturer at University of Kansas, Lawrensville, Kansas.

- [17] Leopold Matamba Messi, graduated with Ph. D. in Aug. 2012 working on multivariate splines for numerical solution of partial differential equations. He is a postdoc at Mathematical Biology Institute and will be there for three years.

**Students (after qualifying exams) under Supervision:**

- George Slavov, Ph. D. student working on multivariate splines for numerical solution of partial differential equations.
- Jay Lanternman, Ph.D. student working on oral qualifying exam.

**Research Experience for Undergraduate Students** Katie Agle, James Alexander, Dustin Burn, Coop Cunliffe, Grant Fiddymont, , Max Mautner, and Terik Trent for seven weeks in the summer, 2008.

**Courses taught at University of Georgia**

- [1] Summer, 1992 MAT253 Analytic Geometry and Calculus
- [2] Fall, 1992 MAT403 Introduction to Numerical Analysis
- [3] Winter, 1993, MAT253 Analytic Geometry and Calculus
- [4] Winter, 1993, MAT404/604 Introduction to Numerical Analysis
- [5] Spring, 1993, MAT405/605, Introduction to Numerical Analysis
- [6] Summer, 1993, MAT254, Integral Calculus
- [7] Fall, 1993 , MAT254, Integral Calculus
- [8]\* Fall, 1993 MAT833, Advanced Numerical Analysis
- [9]\* Winter, 1994, MAT834, Advanced Numerical Analysis
- [10]\* Spring, 1994, MAT835, Advanced Numerical Analysis
- [11] Winter, 1995, MAT253, Analytic Geometry and Calculus
- [12] Winter, 1995 Mat403/603, Introduction to Numerical Analysis,
- [13] Spring, 1995 Mat404/604, Introduction to Numerical Analysis
- [14] Spring, 1995 Mat254, Integral Calculus
- [15]\* Fall, 1995 Mat833, Advanced Numerical Analysis
- [16]\* Winter, 1996 Mat834, Advanced Numerical Analysis(II)
- [17]\* Spring, 1996 Mat835, Advanced Numerical Analysis(III)
- [18]\* Spring, 1996 Mat894, Wavelet Analysis
- [19] Summer, 1996 Mat254, Integral Calculus
- [20]\* Fall, 1996 Mat833, Advanced Numerical Analysis
- [21]\* Winter, 1997 Mat834, Advanced Numerical Analysis(II)

- [22]\* Spring, 1997 Mat835, Advanced Numerical Analysis(III)
- [23]\* Fall, 1997 Mat894, Wavelet Analysis
- [24] Fall, 1997 Mat253, Differential Calculus
- [25]\* Winter, 1998 Mat894, Wavelet Analysis
- [26]\* Spring, 1998 Mat894, Wavelet Analysis
- [27]\* Fall, 1998 Mat8500, Advanced Numerical Analysis
- [28] Fall, 1998 Mat2200, Differential Calculus
- [29]\* Spring, 1999 Mat8510, Advanced Numerical Analysis(II),
- [30] Fall, 1999 Mat2200, Differential Calculus,
- [31]\* Fall, 1999 Mat8500, Advanced Numerical Analysis
- [32]\* Spring, 2000, Mat8770, Partial Differential Equations
- [33] Spring, 2000, Mat2200, Differential Calculus
- [34]\* Fall, 2000 Mat8550, Special Topics in Numerical Analysis
- [35] Fall, 2000 Mat2200, Differential Calculus
- [36] Spring, 2001, Math2210, Integral Calculus
- [37]\* Fall, 2001, Math8550, Special Topics in Numerical Analysis,
- [38] Fall, 2001, Math2200, Differential Calculus
- [39] Fall, 2001, Fres 1010, Freshman Seminar
- [40] Summer, 2001, Math 2200, Differential Calculus
- [41]\* Spring, 2002, Math8550, Special Topics in Numerical Analysis,
- [42] Spring, 2002, Math2200, Differential Calculus
- [43] Summer, 2002, Math 2500, Multivariate Calculus.
- [44] Fall, 2002, Math2200, Differential Calculus
- [45] Fall, 2002, Math2200, Differential Calculus
- [46]\* Fall, 2002, Math8500, Advances in Numerical Analysis
- [47] Summer, 2003, Math2210, Integral Calculus
- [48] Fall, 2003, Math2210, Integral Calculus
- [49]\* Fall, 2003, Math8510, Advances in Numerical Analysis(II)
- [50] Fall, 2003, Fres 1010, Freshmen Seminar
- [51] Spring, 2004, Math2500, Multivariate Calculus
- [52] Spring, 2005, Math2210, Integral Calculus

- [53]\* Spring, 2005, Math8500, Advanced Numerical Analysis
- [54] Fall, 2005, Math2210, Integral Calculus
- [55]\* Fall, 2005, Math8550, Special Topic on Numerical Analysis
- [56] Fall, 2006, Math2500, Multivariable Calculus
- [57]\* Fall, 2006, Math8500, Advanced Numerical Analysis
- [58]\* Spring, 2007, Math8770, Partial Differential Equation
- [59]\* Fall, 2007, Math8510, Advanced Numerical Analysis(II)
- [60] Fall, 2007, Math2500, Multivariate Calculus
- [61] Spring, 2008, Math. 3200, Sequence and Series
- [62] Fall, 2008, Math2500, Multivariate Calculus
- [63] Fall, 2008, Math4500, Numerical Analysis
- [64] Spring, 2009, Math4510, Numerical Analysis II
- [65] Fall, 2009, Math2250, Differential Calculus
- [66] Fall, 2009, Math2250, Differential Calculus (second session)
- [67]\* Spring, 2010, Math 8550, Special Topics on Numerical Analysis
- [68] Fall, 2010, Math2250, Differential Calculus
- [69]\* Fall, 2010, Math8500, Advanced Numerical Analysis.
- [70]\* Spring, 2011, Math8510, Advanced Numerical Analysis(II).
- [71] Fall, 2011, Math. 2260, Multivariate Calculus
- [72]\* Fall, 2011, Math8850, Vigre seminar
- [73]\* Spring, 2012, Math8550, Special Topics on Numerical Analysis
- [74] Spring, 2012, Math8850, Vigre Seminar
- [75] Fall, 2012, Math2700, Differential Equations.
- [76]\* Fall, 2012, Math8710, Variational Methods for PDE.
- [77] Fall, 2013, Math2700, Differential Equations.
- [78] Fall, 2013, Math2700, Differential Equations.
- [79] Fall, 2013, Math8950, VIGRE seminar.
- [80] Summer, 2014, Math3000, Linear Algebra.
- [81]\* Fall, 2014, Math8510, Advances on Numerical Analysis.
- [82] Fall, 2014, Math4500/6500, Introduction to Numerical Analysis.
- [83] Spring, 2015, Math4510/6510, Numerical Analysis.

where \* indicates the graduate level classes.

## Service and Related Activities

### Departmental Committees

- 1996–1998, member of the departmental facility committee
- 1997, member of CITF, University of Georgia
- 1998–2000, member of the departmental personnel committee
- 2001, chair of Kossack calculus committee
- 2000–2002, member of the departmental graduate committee
- 2002, member of Kossack calculus committee
- 2003–2005, member of college promotion and tenure committee
- 2005–2006, member of college promotion and tenure committee
- March, 2006, chair of the 3rd year review committee for Dr. Sornborger.
- 2005–2007, member of the departmental facilities committee
- 2007–2009, member of the departmental personnel committee
- 2008–2009, chair of the departmental personnel committee
- 2009–2011, member of the departmental executive committee (acting vice chair and vice chair).
- 2011–2012, the organizer of the departmental colloquium talks.
- 2011, the chair of the Cantrell Lecturer committee.
- 2011, member of the Math+X professorship search committee.
- 2011–2013, member of the departmental executive committee
- 2013, the chair of the Cantrell Lecturer committee.
- 2013–2015, departmental Graduate coordinator.

### University Committees

- 2011, member of the Chemistry Department Review Committee.
- 2011, member of the Assistant Professor search committee for statistics department.
- 2012, member of the Statistics Department Review Committee.
- 2013–2015 member of the University Council.

### Conferences organized

- April 11–13, 1997, chair of the organizing committee of the eighth southeastern approximation theory conference at University of Georgia, Athens.
- March 23–24, 2002, chair of the organizing committee of the tenth southeastern approximation theory conference at University of Georgia, Athens.
- May 16–19, 2005, chair of the organizing committee of the international conference on Wavelets and Splines at Athens, Georgia. It was attended by more than 100 people from 14 countries including plenary speakers Ingrid Daubechies from Princeton, David Donoho from Stanford University, Mauro Maggnioni from Yale University, Schumaker from Vanderbilt University as well as Program director Dr. Mike Coyle from the Army Research Office.
- Feb. 25, 2012, the organizer of the 4th Georgia Scientific Computing Symposium.
- May 11–22, 2009, The organizer of the summer school on multivariate splines and their applications.
- Jan. 20 –Dec. 30, 2007, organizer of the departmental applied math. seminar.
- Jan. 12 –Dec. 30, 2008, organizer of the departmental applied math. seminar.
- Jan. 10 –Dec. 30, 2009, organizer the departmental applied math. seminar.
- Jan. 8–Dec. 18, 2010, organizer of the departmental applied math. seminar.
- Jan.– Dec., 2011, organizer of the departmental applied math. seminar.
- Jan. –Dec., 2012, organizer of the departmental applied math. seminar.
- Oct. 1, 2010–May. 1, 2012, organizing the departmental colloquium talks.
- Feb. 25, 2012, the organizing the 4th Georgia Scientific Computing Symposium

**Referee for following journals and funding agencies:**

Advanced in Computational Math., BIT, Computer Aided Geometric Design, Computers and Mathematics with Applications, Constructive Approximation, Journal of Approximation Theory, Journal of Applied and Computational Harmonic Analysis, Journal of Computational and Applied Mathematics, Numerical Algorithm, SIAM Journal of Mathematical Analysis, SIAM Journal on Numerical Analysis, Proceedings of A. M. S., Journal of Mathematical Analysis and its Applications, American Math. Society, Department of Energy, National Science Foundation, U.S. Army Research Office.

**Editor for following journals:**

An Associate Editor for Journal of Applied and Computational Harmonic Analysis since 2009.

*Preparation Date: Jan. 18, 2015*
