

# DEPARTMENT OF MATHEMATICS

## NOTES FROM THE CHAIR

The 2014 edition of the UGA math department newsletter is finally here! I hope the pages that follow help to provide you with a sense of the exciting activities and events over the past year: new hires, promotions, recognitions for achievements of students and faculty, as well as conferences, learning innovations, and outreach. The articles here only touch the surface. The day-to-day activities in the classroom, in seminars, or in hallway discussions are the heart of our teaching and research. You can follow some of these activities on our website [www.math.uga.edu](http://www.math.uga.edu), but if you really want to learn more, I suggest you visit us. Alumni, departmental friends, and generally the intellectually curious are always welcome to drop in. We are proud of our work and we are happy to share it with our friends.

Cheers,

Malcolm Adams
