

Math 1113: 9:05-9:55am (Monday,Wednesday,Friday)

9:30 – 10:45am (Tuesday, Thursday)

Spring 2005

Kathryn Braungart, Instructor

Text: *Precalculus* by David Cohen

Office: 602B Boyd Graduate Studies

Office Hours: 10:00-11:00pm. Monday,Wednesday.

¹11:00-12:00 noon, Thursday, or by appointment

****Quiz/Test Dates:**

Skills Test - Thursday, January 20

Test 1 – Wednesday, January 26

Test 2 – Monday, February 14

Test 3 – Tuesday, March 1

Test 4 – Thursday, March 24

Test 5 – Monday, April 11

Test 6 – Wednesday, April 27

JEXAM:

Practice exams can be accessed at all campus computer lab sites. Click on the JEXAM icon and choose the top 'button' labeled 'Practice Tests.

You will soon be able to download the Tutorial from the 1113 Website at www.math.uga.edu/1113/1113home..

NOTE: It will be important to pay close attention to instructions given in class regarding the testing system.

Attendance Policy:

Attendance is required in this class on all days. Any student missing more than 5 days may be withdrawn from the class, (see midpoint policy). Specifically, there are **no** 'excused' absences after five are missed.

Midpoint Policy:

Tuesday, March 8th is the midpoint of Spring Semester. Prior to this date you may withdraw from the course with a 'W'. Any student wishing to withdraw after this date will be assigned a 'WF', (this includes withdrawals due to lack of attendance!).

Grading Policy:

Test 1: 5%....Tests 2-7: 60%.....In-Class: 15%.....Final Exam: 20%.

In-Class Component

Come prepared each day. There will be a short in-class quiz at the beginning of each class. There will also be a weekly hand-in Homework Assignment. The average of the in-class quizzes and assignments will count 15% of your total grade. I will drop the 5 lowest scores. This includes grades of zero if you are late for class or absent.

Homework:

Homework will be assigned daily. On Tuesdays and Thursdays we will often have time in class to discuss one or two of the homework problems. However, if you find you are having trouble completing the assigned exercises make sure to come to office hours or get help from the regularly scheduled afternoon help sessions. Remember, the best way to keep up with this class is to be working on the material *daily*.

*****The Math Department runs a study hall several afternoons a week from 3:30 – 5:30. This is an excellent place to study, as well as get help with homework problems! Stay tuned for days and locations.

Miscellaneous:

You will need a calculator with exponential, logarithmic, and trigonometric keys.

Any student who has not taken any of the tests by the midpoint of the quarter will be withdrawn from the class.
