Text: Edwards and Penney, Calculus: early transcendentals version, 6th edition

We will cover most of chapters 2, 3 and 4, plus some additional material from other chapters. An outline of the course may be found online at

http://www.math.uga.edu/undergraduate/2200syllabus_outline.htm

However, I will probably deviate from this outline to some extent.

Homework: We will use the online homework tool **WeBWorK** for most (but not all) homework assignments. The system should be up and running by the second week of classes. I will inform you of the details soon.

Drop day is Thursday, March 1.

There will be four tests, tentatively scheduled for

Thursday, Jan. 25

Tuesday, Feb. 20

Thursday, March 22

Thursday, April 19

The final exam will be on Thursday, May 3, from 12:00 - 3:00 pm, in the regular classroom.

Semester grades will be determined using the following weights:

Homework	15%
Tests	40%
Final exam	30%
Participation and effort	15%
