
Instructor: Lev Konstantinovskiy, Boyd 427H, Phone: 542-2722, Email: WebCT
Office Hours: 1:15-2 PM MWF and by appointment
Textbook: Pre-calculus, UGA edition, David Cohen, available at the university bookstore.
Prerequisites: Students are expected to have solid understanding of arithmetics, especially fractions and algebra.

Math 1113 Department homepage: <http://www.math.uga.edu/1113/1113home.htm>

JExam download: : <http://exams.uga.edu/jmartin/JExamStudent/install/install.htm>

Objectives: This is a fast paced course to prepare students for the Calculus class. Solving JExam problems is NOT the main purpose of this course. Instead, the focus is on understanding the concepts. Therefore, the methods used in this course may not be the fastest way to solve the problems but they help students to understand the material.

Expectations: Do Practice tests: most of the questions in tests and homework are similar to those in Practice tests. Get used to JExam asap to avoid failing Test 1. Log on to your WebCT account at least once a day and post questions there. Finally, the intensity of this class may be out of your expectation.

Testing Labs: Room 324 and 308 Boyd.

Test Requirement: Sign up for each test online. Bring picture ID for each test. Only TI-30 is allowed for the tests. If you require extra time to take the test, contact the lab supervisor in advance.

Lab supervisor: Sam Bennett, 325A Boyd, 542-3074, sbennett@math.uga.edu. This is the person you need to contact if you have any trouble on JExam.

Test dates: Sep 5, Sep 19, Oct 5, Oct 22, Nov 9, Nov 30.

Grades policy: Homework: 5%, Quizzes: 10%, Tests: 60%, Final exam: 25%

A	92-100	A-	89-91	B+	87-88	B	82-86	B-	79-81
C+	77-78	C	72-76	C-	69-71	D	60-68	F	≤ 60

The three lowest homework grades will be dropped at the end of the semester. The lowest test score will be replaced by the final exam score provided the final exam score is higher than the lowest test score. Adjustment of test or homework scores is possible only in the case that the student entered the correct answer and the computer did not grade it correctly. Quizzes will be given with or without short notice and no make up quizzes will be given.

Attendance Policy: Students are allowed for no more than five absences including both excused and unexcused absences. On the sixth absence, a student may be withdrawn from the class with a grade W or WF (definitely WF after midpoint). Do not regard these five absences as personal free days. These are only to be used in cases of illnesses or family emergencies. In some cases, verification may be required. Attendance is required on each test day, therefore **the students should not schedule their tests on class meeting time. The material for the succeeding test will be started on each test day.**

Academic Honesty: All students are responsible for maintaining the highest standards of honesty and integrity in every phase of their academic careers. The penalties for academic dishonesty are severe and ignorance is not an acceptance reason. Students should pay particular attention to sections 5 and 7 of the academic honesty statement.
