

Syllabus and Course Policies
Math 1113 Pre-Calculus
Section 41-723 10:10–11:00 AM
MWF Life Sciences Building, Room C130

Instructor: Jerry Hower
Office: Boyd Graduate Studies Room 649
Office Phone: 542-5961
E-mail: jhower@uga.edu
Office Hours: M,T 2:00-2:45; F 1-2:30;

- Course Website: <http://www.math.uga.edu/1113/1113home.htm>
Here you will find information concerning grading, test administration, and other aspects important of the course. Also, Sam Bennett(sbennett@math.uga.edu) is in charge of the computer based aspects of MATH 1113 course.
- Text: *Precalculus 2th Edition* by David Cohen
- Homework: No homework will be collected. However, I highly recommend that you attempt as many review problems(see the syllabus at the 1113 website) as you can.
- Quizzes: There will be 5 in-class quizzes during the semester. They will be announced at least a week in advance. While there will be no make-up, I will disregard the one with the lowest score. Each of the remaining counts for 3.75% of the final grade. Together these comprise the non-computer portion of the grade.
- Exams: There will be seven exams(all online) with the last one being the final exam. Information concerning these can be found on the course website.
- Calculator: These are prohibited for the quizzies. They may be used for the online exams, but must be the ones supplied on the computer and not ones from home.
- Attendance: See the attendance policy on the course website. I intend to pass around an attendance sheet at the start of each class.
- All students are responsible for maintaining the highest standards of honesty and integrity. The penalties for academic dishonesty are severe and ignorance is not an acceptable defense. For further information and official policy consult <http://www.uga.edu/ovpi/>
