

Math 2200L – Calculus I Lab
Spring 2004

- Instructor: Cynthia Fort
- Office: Boyd Graduate Research Center, Room 427 D
- Phone: 706-542-2619
- Email: cfort@math.uga.edu
- Office hours: Mondays and Wednesdays 10:30 – 11:30
- Prerequisites: Basic knowledge of computers.
- Course Objectives: To gain a deeper understanding of the concepts you are learning in your Calculus class and pick up a little programming along the way. We will use Maple to examine functions and more in a way not reasonable with conventional methods.
- Grading: Your final grade will be computed from the grades earned on the labs and attendance will be taken into account. Approximately 6-8 labs will be assigned. Late work will not be accepted, especially if grading of the labs has already begun. Quizzes may be given.
- Attendance: You are expected to attend ALL lab sessions and attendance will be taken. If you miss more than 2 labs your grade will be lowered. Please advise me in advance if you need to miss a lab.
- Academic Honesty: You are required to adhere to the academic honesty policies of the University of Georgia. In addition, you are to write up your labs individually. You are NOT to print out someone else's lab and add your name to it. You may work with others while in the lab, but your work should not be a carbon copy of another student's work. Students who do not adhere to these policies will be reported to the relevant administrative bodies.
