

The University of Georgia

Math 1113 Precalculus Section 74391
SYLLABUS Fall 2009
Mr. Reichle

LECTURE: MWF 12:20 p.m - 1:10 p.m. in Hardman Hall 101

OFFICE/PHONE/EMAIL: Boyd GSRC 506, phone 706 542 2588

email kurt@math.uga.edu **course websites:** <http://www.math.uga.edu/116/1113home.htm> and there is also a HW/test web server, <https://www.webassign.net>

OFFICE HOURS: Boyd 603C MWF 11:15 a.m. - 12:15 p.m. and TR 12:45 p.m. - 1:45 p.m. You may schedule an appointment for other times; please telephone or email in advance.

TEXT: Swokowski/Cole, *Precalculus: Functions and Graphs*, UGA Edition, Thomson. ISBN-10: 1-4240-8241-2 or ISBN-13: 978-104240-8241-4. (This is the UGA edition, but you may purchase the 11th edition of the entire text, ISBN-10: 0495108375 or ISBN-13: 9780495108375)

COURSE DESCRIPTION/OBJECTIVES: This course is designed to prepare a student for calculus. It is the culmination of the study of function prior to calculus. The successful student will complete an algebra review, a detailed study of functions and models, and study of specific functions including powers, exponentials, logarithms, rational functions, and trigonometric functions; and demonstrate understanding of each. This study includes solving equations involving the relevant functions. In addition, a successful student will be able to model functions and apply the models to concrete settings. The complete content list can be found on the web at <http://www.math.uga.edu/undergraduate/1113.pdf> See the appended list of suggested homework problems to see the sections of Swokowski/Cole we will cover.

REQUIREMENTS: There is a prerequisite of placement into Math 1113. PROMPT, COMPLETE ATTENDANCE is expected at all classes. Professional courtesy toward your instructor and your classmates is expected. Tests may be made up in the event of University of Georgia athletics (arrangements in advance only) or documented illness. There is no makeup of homework or quizzes; instead scores are dropped.

TESTS and QUIZZES: Five tests are scheduled, on 9/3, 9/22, 10/8, 10/27, and 11/17. There will be 11 on-line quizzes; due dates will be posted on the on-line calendar. There will be in-class quizzes, with questions from material covered in the previous class. The comprehensive final exam is scheduled by YOU during finals week.

All tests are taken on computer in Boyd GSRC rooms 220 and 324. Tests are taken outside of class time during the hours 9 a.m. - 10 p.m., no admittance after 10 p.m. A picture ID is required to take each test. Each student must go to the Math 1113 website to register for a time to take each test. Make-up tests will be given only in the case of unavoidable absences (usually illness), with written documentation. It is the responsibility of the student to contact me as soon as possible and definitely before the next attended class meeting to make appropriate arrangements for making up any missed test. In order to make-up the final exam, documentation must be provided.

TECHNOLOGY: The TI 83/84 model calculators are strongly recommended. They will not be allowed on quizzes. At exams, a calculator will be available on the PC.

GRADING: I will drop the lowest 25% of the in-class quizzes. The online homework is essential practice for WebQuiz and Tests, so I will require completion of all online homework, dropping the lowest 3 scores. There are 11 WebQuiz assignments and I will drop the 3 lowest scores. There are 5 tests, and your final exam score will replace the lowest test score (if higher). The tests count 12% each or 60% total to your course grade, the in-class quizzes 7% total, online WebQuizzes 5%, the online homework 3%, and the final exam 25%.

The following grading scale will apply: 92 – 100 A, 89 – 91 A -, 87 – 88 B+, 82 – 86 B, 79 – 81 B -, 77 – 78 C+, 72 – 76 C, 69 – 71 C -, 60 – 68 D, and below 60 is an F.

ATTENDANCE POLICY: Students are allowed no more than 3 unexcused absences. On the fourth unexcused absence, a student may be withdrawn from the course with a grade of WP or WF (definitely WF after midpoint). Do not regard these 3 allowed absences as "personal free days". These are only to be used in cases of personal or family emergencies. In some cases, verification may be required.

ACADEMIC HONESTY POLICY: All academic work must meet the standards contained in *A Culture of Honesty*. (<http://www.uga.edu/honesty/> and there is a link to read the document) Students are responsible for informing themselves about those standards before performing any academic work. This policy defends the academic integrity of all student work, and will be uniformly applied to all students in the class.

ACADEMIC ACCOMMODATION: If you have a documented (learning) disability, you should contact the Disability Resource Center (<http://www.drc.uga.edu/about/welcomeletter.php>)

REMARKS: Questions are encouraged at all times. Scheduling difficulties can be amicably settled by PRIOR discussion. One aspect of being a member of a community of scholars is to show respect for others by the way you behave. One way of showing respect for others in the educational community is to do your part to create or maintain an environment that is conducive to learning. That being said, allowing your pager or cell phone to ring in class is completely inappropriate because it distracts your classmates and thus degrades their overall classroom experience. Answering your cell phone is doubly inappropriate! For the sake of your classmates, I expect you to turn off your pager and/or cell phone or set it to mute/silence BEFORE you enter class—every class. Similarly, using laptops during class for anything but note taking is not appropriate. Furthermore, if, in the instructor's opinion, phone/laptop/pager usage becomes a problem, then the offending party will be expelled from class.

Notice that there is no class on the dates 9/7, 10/30, and 11/23-11/27. We DO have class on 12/8 (Tuesday is a Friday that week). The last day to drop any course is October 22. The deadline to switch sections is September 16.

The course syllabus is a general plan for the course; deviations announced to the class by the instructor may be necessary. It is the responsibility of the student to seek clarification of the grading policy and/or course requirements and procedures from the instructor.
