

The University of Georgia

Math 1113 Precalculus Section 24380

SYLLABUS Fall 2009

Mrs. Warnes

LECTURE: MW 10:10am – 11:00 am and TR 9:30 am – 11 am in Aderhold Room 625

OFFICE/PHONE/EMAIL: Boyd GSRC 328 A, phone 706 542 0945

email use webassign email **course websites:** <http://www.math.uga.edu/116/1113home.htm> and there is also a HW/test web server, <https://www.webassign.net>

OFFICE HOURS: 10:00 to 12:00 in Boyd 328A. You may schedule an appointment for other times; please email in advance).

TEXT: Swokowski/Cole, *Precalculus: Functions and Graphs*, UGA Edition, Thomson. ISBN-10: 1-4240-8241-2 or ISBN-13: 978-104240-8241-4. (this is the UGA edition, but you may purchase the 11th edition of the entire text, ISBN-10: 0495108375 or ISBN-13: 9780495108375

COURSE DESCRIPTION/OBJECTIVES: Preparation for calculus, including an intensive study of algebraic, exponential, logarithmic, and trigonometric functions and their graphs. Applications include simple maximum/minimum problems, exponential growth and decay, and surveying problems. The successful student will complete an algebra review, a detailed study of functions and models, and study of specific functions including powers, exponentials, logarithms, rational functions, and trigonometric functions; and demonstrate understanding of each. This study includes solving equations involving the relevant functions. In addition, a successful student will be able to model functions and apply the models to concrete settings. The complete content list can be found on the web at <http://www.math.uga.edu/undergraduate/1113.pdf> See the appended list of suggested homework problems to see the sections of Swokowski/Cole we will cover.

REQUIREMENTS: There is a prerequisite of placement into Math 1113. **PROMPT, COMPLETE ATTENDANCE** is expected at all classes. Professional courtesy toward your instructor and your classmates is expected. Tests may be made up in the event of University of Georgia athletics (arrangements in advance only) or documented illness. There is no makeup of homework or quizzes; there are scores dropped instead.

TESTS: Five tests are scheduled, on 9/3, 9/22, 10/8, 10/26, and 11/17. There will be 11 in-class quizzes, tentatively scheduled for 8/25, 9/1, 9/14, 9/17, 9/28, 10/5, 10/15, 10/21, 11/2, 11/11, & 12/2. These quizzes are paper quizzes and not on the computer. There may be additional (announced or pop) quizzes. The comprehensive final exam is scheduled by YOU during finals week. There are also 11 web-quizzes which you take outside of class.

All tests are taken on computer in Boyd GSRC rooms 220 and 324. Tests are taken outside of class time during the hours 9 a.m. - 10 p.m., no admittance after 10 p.m. A picture ID is required to take each test. Each student must go to the Math 1113 website to register for a time to take each test. Make-up tests will be given only in the case of unavoidable absences (usually illness). To make up a test written documentation must be provided. It is the responsibility of the student to contact me as soon as possible

and definitely before the next attended class meeting to make appropriate arrangements for making up any missed test. In order to make-up the final exam, documentation must be provided.

TECHNOLOGY: The TI 83/84 model calculators are strongly recommended. They will be allowed on some quizzes. At exams, a calculator will be available on the PC.

GRADING: In-class quizzes are worth 10 points each: I will drop the 2 lowest scores (more if we have pop quizzes). The online homework is essential practice for WebQuiz and Tests, so I will require completion of all online homework, dropping the lowest 3 scores. There are 11 WebQuiz assignments and I will drop the 3 lowest scores. There are 5 tests, and your final exam score will replace the lowest test score (if higher). The tests count 12% each or 60% total to your course grade, the in-class quizzes 7% total, online WebQuizzes 5%, the online homework 3%, and the final exam 25%.

The following grading scale will apply: 92 – 100 A, 89 – 91 A -, 87 – 88 B+, 82 – 86 B, 79 – 81 B -, 77 – 78 C+, 72 – 76 C, 69 – 71 C -, 60 – 68 D, and below 60 is an F.

ATTENDANCE POLICY: Students are allowed no more than 3 unexcused absences. On the fourth unexcused absence, a student may be withdrawn from the course with a grade of WP or WF (definitely WF after midpoint). Do not regard these 3 allowed absences as "personal free days". These are only to be used in cases of personal or family emergencies. In some cases, verification may be required.

ACADEMIC HONESTY POLICY: *As a University of Georgia student, you have agreed to abide by the University's academic honesty policy, "A Culture of Honesty" and the Student Honor code. All academic work must meet the standards described in "A culture of Honesty" found at: www.uga.edu/honesty. Lack of knowledge of the academic honesty policy is not a reasonable explanation for a violation. Questions related to course assignments and the academic honesty policy should be directed to the instructor.*

ACADEMIC ACCOMMODATION: If you have a documented (learning) disability, you should contact the Disability Resource Center (<http://www.drc.uga.edu/about/welcomeletter.php>)

REMARKS: Questions are encouraged at all times. Scheduling difficulties can be amicably settled by PRIOR discussion. One aspect of being a member of a community of scholars is to show respect for others by the way you behave. One way of showing respect for others in the educational community is to do your part to create or maintain an environment that is conducive to learning. That being said, allowing your pager or cell phone to ring in class is completely inappropriate because it distracts your classmates and thus degrades their overall classroom experience. Answering your cell phone is doubly inappropriate! For the sake of your classmates, I expect you to turn off your pager and/or cell phone or set it to mute/silence BEFORE you enter class—every class. Similarly, using laptops during class for anything but notetaking is not appropriate. Furthermore, if, in the instructor's opinion, phone/laptop/pager usage becomes a problem, then the offending party will be expelled from class.

Notice that there is no class on the dates 9/7, 10/30, and 11/23-11/27. We DO have class on 12/8 (Tuesday is a Friday that week). The last day to drop any course is October 22. The deadline to switch sections is September 16.

The course syllabus is a general plan for the course; deviations announced to the class by the instructor may be necessary. It is the responsibility of the student to seek clarification of the grading policy and/or course requirements and procedures from the instructor.
