10. Please comment briefly on specific aspects of this instructor's teaching which in your opinion particularly deserve praise and criticism such as assignments, grading, testing, methods of instruction, enthusiasm, etc.:

didn't teach maple.. just told us what to put in for assignments

He always made sure that everyone in the class understood what he was doing, and he would even come over to our computers and help us figure out what we were doing wrong. I haven't had ANY other teachers take the time to make sure everyone was on the same page before moving on! He's very laid back, but really knows his stuff, and I think he is exceptional! :)

He was fair and kind to us from the beginning.

He was very flexible and always helped when had questions.

he was very well educated in all the areas we discussed

I thought that the instructor made the process of completing the necessary assignments more enjoyable as he explained them thoroughly and was willing to answer all questions raised.

I wish he was a math teacher. He made class fun.

Mr. Bergonio did his best to help students deal with the difficult and complex Maple program. He was knowledgeable in explaining math questions on lecture days and used the board to show examples.

our teacher was great!! he was very helpful, and very approachable. he was always there after class to help us and explain what we were doing in our individual calc classes. he also knew maple like the back of his hand, i myself had many problems and he would always be there to help me get out of the jam i got myself in.

Phil was always available for help and made sure everyone was on the same page before proceeding with the lesson. He made sure that everyone understood what was going on. He was enthusiastic and wanted the students to do well, and it showed. On non-lab days he would sit with individual students and answer their questions which I appreciated a lot. He made what could have been a boring class fun.

Phil was an awesome Lab teacher. The assignments were fair and he always was available to answer any questions we had. Very enthusiastic during class, always seemed to know the material and program very thoroughly.

The class was great!

Was a great TA and very helpful
