Bergonio is very personable and available to assist students any time. He knows how to explain the material and loves to help everyone.

He was a good TA. He was well prepared for class and helped us learn Maple. If we had questions, he was always there trying to help us. He graded fairly. I liked him as a TA a lot!

He was a great teacher and explain all the functions of maple throughly and correctly. GREAT SEMESTER.

My teacher was really cool and knew a ton about the subject matter.

Phil cuts through the red tape and actually helps us with our material. He also provided us access to his personal website that had more sample questions related to the subject we are talking about in math class. Phil is suited better for teaching calc than dr. balueva.

Phil isa wonderful teacher and always willing to help his students who have questions. He is easy to understand and very helpful. He grades fairly and is always willing to anwser questions. He knew how to use maple very well. I think he is a wonderful instructor!

Phil was extremely helpful. On days when the assignment was completed and after the class was essentially over, he would stay after and offer extra help from the lecture course.

very approachable, patient and helpful with any assignments, even ones not related specifically to lab, but calculus in general

Very dynamic and competent teacher.  
Provides help when needed.

Was helpful when questions were raised in class. Lab grades & projects were fair, test results were given back promptly. Admirable enthusiasm for class & subject. Great lab instructor.

Well rounded, nice guy, helped whenever possible and broke it down for easier understanding. Great semester!
