7. Your answer to this final question, along with your other ratings and comments, will help the Mathematics Department to recognize faculty members whose teaching is truly outstanding. I rate my professor in this course as:

Average: 3.13333

Standard Deviation: 0.83381

6;40.0%	Outstanding (exceptional teacher)
5;33.3%	Superior (above average to excellent)
4;26.7%	Good (a solid and competent teacher)
0;0.0%	Fair (improvement needed)
0;0.0%	Poor (seriously deficient)
0;0.0%	No Answer

There are 10 comments for this course:

Please comment briefly on specific aspects of this instructor's teaching which in your opinion particularly deserve praise and criticism such as assignments, grading, testing, methods of instruction, enthusiasm, etc.:

all around he just teaches the information extremely well.

Awesome teacher!

Bergonio is a good teacher who knows the material extremely well. But he went too fast at times, but was also behind at times. We learned new material the day before a test at least 2 times. Other than the pace and speed of the class, everything was fine.

He explained the problems very well, was very helpful with JExam work, gave examples in class that were very similar to questions that were on the homework and tests.

He is a great math teacher and really helped me. One of the best teachers I've had at uga so far.

He was a good teacher just spoke a little too fast and lost understanding from the students quite frequently. The one thing i would change is his speed in teaching.

I enjoyed Phil's class. He was a good at teaching the material and presented it in a simple easy to learn way. He was very clear in how she showed his steps and was always willing to answer any questions students had. I feel he was a great help in preparing me for the tests. He is easy to understand and a great guy. He teaches at an average pace and doesn't really speed through the material. The only thing i might criticise is just the small mistakes he makes on the board, but i have no room to talk because i make those same small mistakes. Overall i would recommend him as a teacher for any level math student weather they struggled with math or if they excell in math.

I liked Mr. Bergonio, he really knew the material and was able to explain things so that I could understand them. He was very organized and his notes were easy to follow. He was an awesome teacher. He had a lot of study sessions and his worksheets helped me tremendously in this class.

I thought Phil was the best Math teacher I've ever had. When I first entered his class I was told I should take intensive pre-calc, but I knew the first day Phil would be a great teacher and I was correct. I don't think I can recall one day he came into class with a bad mood, everyday he came prepared and ready to teach. Overall, I recommend Phil to any student who feels math isn't their best subject.

Phil Bergonio was a great instructor. The material he went over in class helped the students with homeworks and tests. The only complaint I had in his teaching skills was that he went over the material too fast, but I guess that is expected because of the time alloted. Overall, I enjoyed the class.
